

**OPERATE SMARTER.
BUILD STRONGER**

**WHERE DATA, PEOPLE,
AND PROCESSES INTERSECT.**

Timlead redefines infrastructure management through a matrix-based architecture that connects all business functions — from field to finance — into a single digital backbone.

The Timlead Concept

Timlead gives you full control over your field operations ecosystem, connecting technicians, managers, and clients in one unified platform.

- **DIGITALIZE FIELD OPERATIONS**
Replace paperwork with smart forms & automated workflows.
- **REAL-TIME GIS SUPERVISION**
Track teams, jobs & assets on interactive GIS maps.
- **ON-DEMAND MODULES**
Activate only what you need: ticketing, billing, inventory, dispatch.
- **UNIFIED ASSET MANAGEMENT**
Centralize networks, buildings, vehicles, and equipment.
- **SEAMLESS COLLABORATION**
Connect technicians, managers, clients, and subcontractors.
- **DATA-DRIVEN INSIGHTS**
Optimize costs, quality & timelines with data-driven insights.

TIMLEAD
The all-in-one
Platform to Digitalize
and manage your field
operations

Timlead Sub-Brands

To meet the specific needs of each sector, Timlead offers vertical solutions:

TIMLEAD E-FORMS

Smart digitalization of business processes

TIMLEAD TICKETING

Powerful incident and intervention management

TIMLEAD ENERGY

Full monitoring of energy and solar deployments

TIMLEAD IRVE

Supervision and maintenance of EV charging infrastructures

TIMLEAD TELECOM

End-to-end telecom project supervision and maintenance

TIMLEAD BILLING

Simplified invoicing and financial tracking

Timlead Modules

A comprehensive suite of tools designed to optimize every aspect of your field operations.

AI POWERED

DIGITAL FORMS (E-FORM)

Replace paper and Excel with smart, configurable forms – validated and synced in real time

EXAMPLE

A form is triggered, filled on site, auto-checked, and exported to PDF/BI without manual work

GIS & MAPPING

Visualize and control your network and assets on an intelligent, real-time map

EXAMPLE

A field intervention instantly updates the map, ensuring live accuracy across all teams

AI POWERED

TICKETING & WORKFLOW

Trigger, assign and track every ticket with a smart, automated workflow engine

EXAMPLE

A request is created, auto-assigned to the right team, executed and closed with proof and SLA tracking.

BILLING & CONTRACTS

Automate billing from real operational data – no more manual reconciliation

EXAMPLE

Billing is driven by validated field data – not by Excel or manual declarations

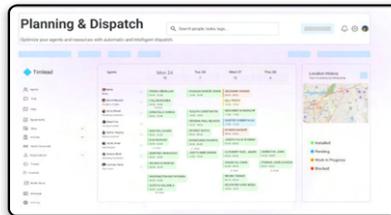

AI POWERED

PLANNING & DISPATCH

Plan, assign and control all field work from one unified scheduling and dispatch engine

EXAMPLE

Schedules update dynamically based on skills, availability, delays and route constraints

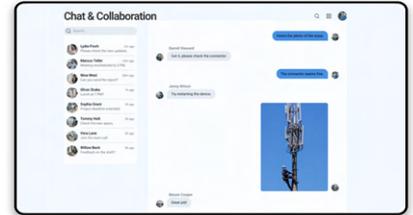

CHAT & COLLABORATION

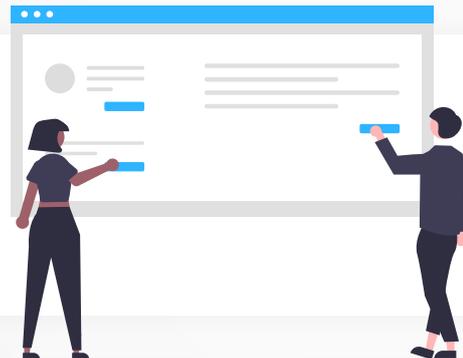

Collaborate instantly with field teams through an integrated, traceable chat linked to operations

EXAMPLE

No more WhatsApp chaos – all discussions happen in one place, tied to the right task and team

Timlead One Platform Total Control

Why Choose Timlead?

Proven results that drive business growth.

✓ MODULAR & SCALABLE

Activate only the modules you need

✓ CLOUD & MOBILE-FIRST

Accessible anywhere, even offline

✓ NATIVE INTEGRATIONS

Compatible with your ERP, CRM, SharePoint, and Microsoft Teams

✓ SECURITY & COMPLIANCE

Conforms to international standards

✓ FAST DEPLOYMENT

Operational in weeks, not years

✓ SUPPORT & TRAINING

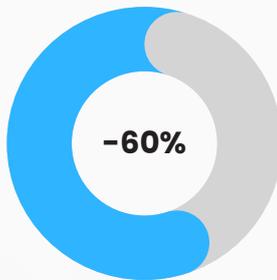

Onboarding and assistance for successful adoption

Drive results that matter

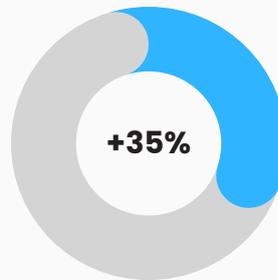

The world's most innovative companies use Timlead to plan, build, operate, and maintain their critical infrastructure.

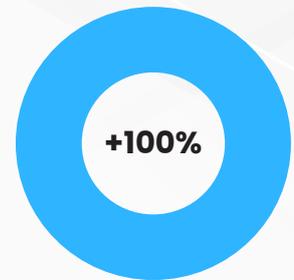

Shorter intervention times

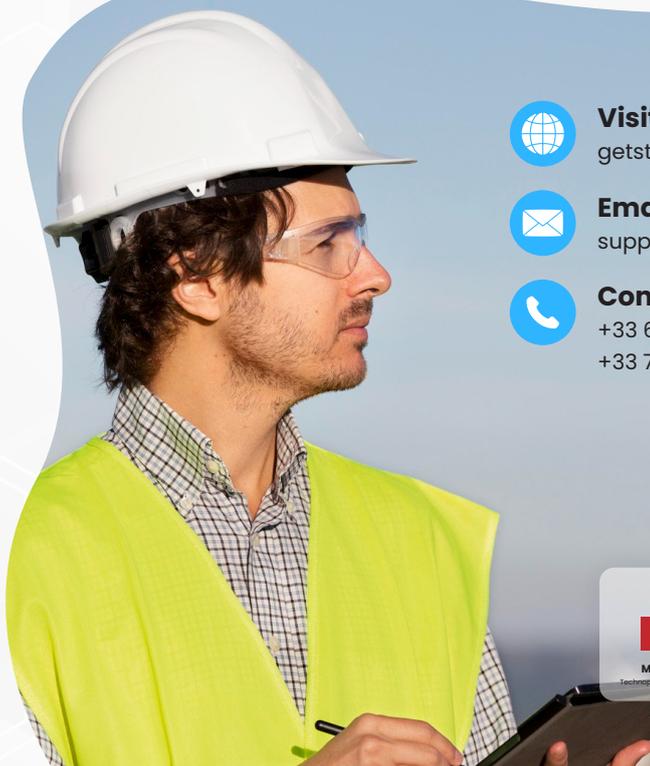

Reduced project timelines

Improved productivity, quality, and execution excellence

Enhanced monitoring, data management, and security
